# Procedura pentru activarea (un-bricking) iPhone-urilor pe calculatoarele Windows

1. Se conecteaza iPhone-ul prin cablul USB la calculator. Calculatorul va instala driver-ele pt acesta si mai multe mesaje vor aparea in partea ecranului de langa ceas. La mesajul de mai jos se da **Cancel**.

2. Se porneste iTunes dand dublu click pe iconita de mai jos.

3. La prima rulare a programului vor aparea ferestrele de mai jos. Va rugam sa configurati programul conform comenzilor de deasupra ferestrelor! Altfel s-ar putea sa intampinati dificulati si/sau sa va modificati anumite setari ale calculatorului.

iTunes Setup Assist	<ul> <li>Welcome to iTunes</li> <li>Based on your answers to a few brief questions, this assistant will configure iTunes and alert you to any additional information you need to know about the application and your system.</li> <li>Choose "iTunes Help" from the Help menu to get additional help about iTunes features.</li> <li>To get started, click the Next button.</li> </ul>	×
	< <u>B</u> ack <u>Next</u> > Cancel	

4. Debifati cele 2 casute si dati Next:

iTunes Setup Assis	stant	×
	Find Music Files iTunes can search your My Music folder to find the songs you already have and add them to your iTunes library. iTunes can play both MP3 and AAC music files, and can automatically make AAC versions of unprotected WMA files.	
	Add MP3 and AAC files iTunes will find the MP3 and AAC files in your My Music folder and add them to your iTunes library. The songs will not be copied from their current locations.	
	Add WMA files iTunes will find the unprotected WMA files in your My Music folder and automatically create AAC versions in your iTunes library. The original WMA files will remain unchanged. iTunes cannot convert protected WMA files.

9. Aplicatia porneste si este posibil sa ceara un user si o parola. Daca se intampla acest lucru, va rugam sa dati **Cancel**. Se da click pe **OK** la mesajul de mai jos

#### 10. Activarea iPhone :

a. Se introduce sim-ul (activat) in iPhone

b. Se introduce PIN-ul

c. Se contecteaza iPhone-ul la calculator folosindu-se cablul de conectare USB cu care telefonul vine in pachet

d. Apoi se realizeaza automat conexiunea la site-ul Apple si in 10-30 secunde ar trebui ca iPhone-ul sa fie activat automat.

Dati OK si introduceti urmatorul iPhone pentru deblocat, Minimizati aplicatia pentru o utilizare ulterioara sau inchideti-o.

Felicitari, ati reusit sa activati iPhone-ul!
